

ICELAND TRIP

The following is a summary of some of the excursions on the Iceland trip.

BLUE LAGOON

We spend a few hours swimming and lounging in Iceland's famous Blue Lagoon formed in 1976. This is certainly the highlight of the trip.

Have a silica mud mask or swim over to the café and buy a drink!

SOUTH SHORE EXCURSION

SKOGAFOSS

SOLHEIMAJOKULL

SELJALANDSFOSS

Visit some amazing waterfalls on this excursion. Skogafoss is an incredible 60m in height and always has rainbows!

Take a walk behind the waterfall Seljalandsfoss, bring your waterproofs!

Take a walk on the glacier Solheimajokull and see how it has changed the landscape.

GOLDEN CIRCLE

GULFOSS

It is difficult to see the scale of this waterfall on the picture, but it is absolutely vast! It really shows the power of the planet.

KERID

Circumnavigate the crater of a volcano

GEYSER

Watch 'geysir' or Strokkur erupt boiling water to heights of 30 metres every few minutes.

ÞINGVELLIR

See the North American and Eurasian tectonic plate meet at Thingvellir, the site of Iceland's first parliament.
