

Subject training in **LANGUAGES** for educators

In partnership with Rosetta Stone; Easington Academy, Sacred Heart Catholic High School, St John's School and Sixth Form, St Leonard's Catholic School and The Academy at Shotton Hall are offering subject training in three modern foreign languages to teachers working with young people in schools and colleges.

French, German and Spanish courses (other languages are available on request) are available to those wishing to enhance their language teaching in the class room and/or develop an additional language.

BEGINNER or ADVANCED courses in each language will run from October 2017 to June 2018 with a mix of face-to-face sessions and online learning through Rosetta Stone's E-Learning portal and smart phone app.

We anticipate a high demand for these courses and will be allocating the limited places on a first come, first served basis.

For full details of how to apply and for more about the courses go to:
